

PIONEER RESOURCES

Applied Behavior Analysis

Applied Behavior Analysis, or ABA, is an evidenced-based therapy for children and young adults with autism. ABA therapy breaks skills down into simple steps and teaches each step in succession. Skills are taught with the use of prompting and positive reinforcement.

Pioneer Resources has provided ABA therapy to qualified participants in the community since 2013. Our dedicated team will work together with your family to provide efficient and effective services to best fulfill your goals.

All Muskegon County Medicaid referrals come from HealthWest. Contact your supports coordinator or call us for more information.

A Way To Get There

Transportation Services

Pioneer Resources began as an unincorporated association of parents and educators in the late 1940s, operating as Pioneer School and providing special education and therapy. In 1955, the agency became a tax-exempt, 501(c)(3) nonprofit corporation. As special education and mental health services grew, the organization evolved into Pioneer Resources, Inc. Today, the agency offers an array of individualized supports for persons with disabilities as well as seniors.

OUR MISSION is to help people with disabilities and seniors attain independence and dignity by creating opportunities for participation in the community.
