

PIONEER RESOURCES

Supported Independent Living (SIL)

We all deserve connection, a stable source of support when faced with challenges, and a safe place to call "home". Pioneer Resources strives to ensure that people with varying abilities find connection and support in homes that are comfortable, affordable, and barrier-free.

Our Supported Independent Living (SIL) staff come alongside each resident as they work on personal goals chosen in pursuit of a higher level of independence. Goals might include personal care, budgeting, cooking, managing appointments, transportation, and physical and mental health.

Currently we offer supported independent living services in two homes: Gretchen's Place and Kendall House.

Transportation Services

Pioneer Resources began as an unincorporated association of parents and educators in the late 1940s, operating as Pioneer School and providing special education and therapy. In 1955, the agency became a tax-exempt, 501(c)(3) nonprofit corporation. As special education and mental health services grew, the organization evolved into Pioneer Resources, Inc. Today, the agency offers an array of individualized supports for persons with disabilities as well as seniors.

OUR MISSION is to help people with disabilities and seniors attain independence and dignity by creating opportunities for participation in the community.
